EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arthur M. Reginelli on December 10, 2006.

Claim 34, line 2 replace "1.0 mmol" with "0.5 mmol"

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1, 25-27, 29, and 33-36 are allowed over the closest reference cited below.

The present invention is drawn to a stabilized syndiotactic 1,2-polybutadiene composition comprising a syndiotactic 1,2-polybutadiene, less than about 1.0 mmol of a transition metal per 100 parts by weight of syndiotactic 1,2-polybutadiene, and an antioxidant selected from the group consisting of 2,6-diethyl-4-(dimethylaminomethyl)phenol and 2,6-methyl-4-(dimethylaminomethyl)phenol.

Kline (U.S. 3,935,160) discloses a series of dialkylaminophenols such as 2,6-di-*t*-butyl-4-(dimethylaminomethyl)phenol and 2,6-methyl-4-(piperidinomethyl)phenol for preventing oxidative degradation of stereoregular diene polymers. The reference does not disclose or fairly suggest use of the claimed dialkylaminophenol compounds, and one having ordinary skill in the art would not have found it obvious to modify the invention of Kline and thereby arrive at the subject matter of the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
